California naval reserve leases held a net protfi of \$100,000,000, in his opinion, at the time he took them over, and said that even now he thought there was this much in it, if the drilling extended thirty or forty years and about \$200,000,000 was expended in operations. According to his estimate, he has given the government already a \$10,000,000 bonus for the leases.

As showing how Doheny carried out the spirit with which he undertook the original contract to take these leases and build and store fuel oil for the navy at Pearl harbor, Hawaii, a spirit which was emphasized as that of desire to Mellon's Plan was emphasized as that of desire to aid in the defense of his country, a letter was made public, although not admitted into the record, which shows that Dobeny had spent \$2,000,000 in protecting tanks and field property since the government stopped operation of the leases two year ago.

WEST POINTER'S NECK BROKEN IN

CHICAGO DAILY TRIBUNE: FRIDAY, DECEMBER 10,

STANDING ERECT Worcester, Mass., Dec. 2.—[Special.]

Suffering from a broken neck, apparently sustained when forced to stand erect to conform to West Point requirements, Cadet Adrian J. Van Leeuwen is at his home here on leave of absence until June, convalescing.

First information was that Van Leeuwen was a hazing victim and, while he thought so himself, it appears from the official military academy finding, and from the cadet himself to day, that hazing was not to blame.

He was being put through the usual rigorous routine that all plebes take and was not standing straight enough at drill. Ordered to report to the room of a supervising fourth year man, he was told to brace himself and "try to get the small of his back and neck on a straight line so that no light would shine on the back of his neck."

Van Leeuwen pulled himself up taut

Salads That are Enticingly Different

USE Pabst-ett for salads and enjoy the thrill of a new, delightful flavor. Pabst ett is that new and finer food made by a process which retains the nutritive value of whole milk— conserves the milk sugar, proteins and body-building mineral elements formczly lost in cheese-making.

Pabst-ett has a rich flavor and a tang that wins favor at first taste. Spreads easily at ordinary temperature; slices appetizingly when cold. The unplease ant after-effects which so many people believe come from eating cheese are not caused by Pabst-ett. It is so easily digestible that everyone - even children - may eat it to their heart's content.

For a spread for bread, crackers, or sandwiches, and for salads there is nothing more palatable or wholesome. Order Pabst-ett from your grocer today.

Cod Liver Oil builds up resistance

PURE cod liver oil is unparal-leled as a food tonic by anything that nature or man can offer. It is invaluable for building and toning the system and for the treat-ment and prevention of disease.

It is rich in Vitamines A and B, important blood-building and disease-resisting elements. It is an abundant source of iodine, which food specialists tell us is necessary

Peter Möller's Cod Liver Oil is prescribed by physicians and hos-pitals all over the world because of its purity and palatability, and because it is tasteless, odorless and absolutely free from after-taste. It is worth a little more money to know you get the best that can be bought. At druggists.

The Agricultural association pre-The Agricultural association pre-sented figures of the prices of farm property in numerous sales, it being assumed that in this way the actual value was determined. They did the same regarding numerous sales of city property and, according to Mr. Malohe, proved thereby that farms are assessed upon a greater percentage of the actual value than is city property

those counties.

John C. Watson, director of the deent of taxation for the Illinois ultural association, said the petition on which the tax commission acted was by the farm bureaus of the various counties. He said all the farmers are asking is equalization in taxation.

Tax Body Acts in Four It was suggested that if the farm property is to be reduced in value the city property must be increased accordingly if the various taxing bodies require the amounts anticipated upon the present levy. Chairman Malone said one of the reasons for the complaints in the four counties is that the Harvester plant, 2567 Blue Island avenue.

and officials from the two major and 26 minor leagues from all parts of the United States and Canada attended the three day session. More trades were made during this time than in any similar period in the association's his-tory. Between 75 and 100 minor league

players and about 10 major players were sold or transferred.

At the final business session the association declined to indorse the National Association of Professional Baseball Players until active players as a whole "contribute to the maintenance of the home in California for disabled

In the revision of the constitution In the revision of the constitution the association adopted a new rule which prohibits players under contract to teams in organized baseball from taking part in games between Oct. 31 and the start of the following playing season. This ruling will affect players in the Pacific Coast league and in Florida and Georgia.

The members declined to suspend the rules in order to consider the invitation of West Baden Spring, Ind., for 1927 meeting place, and named Dallas, Tex. The date will be decided upon later.

Remarkable Gasoline!

SOLITE is a wonderful gasoline. Light—powerful makes cold weather driving as smooth and easy as summer driving.

You'll have no trouble starting when Solite is in the tank. The engine starts to hum at the first pressure on the starter! The motor is nimble, lively and quick! Power is there, ready to be called into play. Solite drives the piston the full stroke under power. That's how it's different from most light gasolines.

Solite will put new life into your car. Try it onceand you'll wonder how you ever drove a car in winter without it. Speed—swift and sure—from start to finish—any weather, all the time! That's what Solite means. It's a remarkable gasoline!

Solite costs a few cents more per gallon, but you'll say, "It's worth it!"

Several of the local operators were on the selling side of corn, some taking profits on grain recently bought, while others were putting out short lines on the belief that the market was entitled to a good reaction. Buying against bids was the main influence in checking the break. Outside trade as a whole was limited, and sentiment more mixed than of late. Country offerings to arrive continue light, with no improvement in the eastern demand.

Onto declined in sympathy with corn and on selling by local longs. Cash houses bought December and sold May at 4½c difference. Trade in rye was aight and mainly in the way of changing from December to May around 6½c difference. A little export business was claimed at the seaboard.

all in fact different espects c the same thing. Every one of the them has been voluminously discussed as a factor in the unique prosperity of this period, with its nearly unique combinations of rising volume of production, falling or stationary price levels and stable or rising wages.

In this column it has on former occasions been attempted to generalize these things as a new dimension of business, resulting from greater mobility. The effort has been made to dramatize it by showing that it is the dollar, not the man, which today asks for a "fair day's pay for a fair day's work."

The result is that any producing industry, which has had to plant scores or hundreds of millions of dollars in lands, mineral deposits, forests or other sources of future raw material supplies finds itself—making money—yes, lots of

| BY HARPER LEECH. | If the volume of business for 1927 | talls much below that of 1928 no be only will be more surprised than the beaders of the greater American corporations. | Within the last two weeks this writer has had occasion to talk to a number of industrial captains. Not one was asked for any direct statements as to what he thinks of next years' business. | The inquiry related rather to the fundamentally new conditions under which all business is being done. And the low down to be intered from what they said is that there is going to be a whole lot of business in 1927, from which some classes of corporations are going to make a good deal more money than others. | New YORK MARKET. | Law YOR

The following is summarised from a letter (transmitted by cable) of Dr. Francisco Ratto, Minister of Finance of the Province:

PROVINCE OF BUENOS AIRES: The Province of Buenos Aires is the premier province of the Argentine. It ranks first, not only in point of area, size and density of population, railroad mileage and wealth, but also by virtue of its industrial, agricultural and commercial development. The Province has an area of 117,700 square miles, which is larger than the combined areas of the New England States and the State of New York, and a population in excess of 2,600,000, or about one-fourth of the entire population of the Argentine. A separate Federal District (analogous to the District of Columbia, U. S. A.) and containing the City of Buenos Aires, capital of the Argentine Republic, adjoins the Province, its population of 2,000,000 providing a permanent and important market for food and other products. The Province is traversed by a network of railroads, the mileage exceeding 8,000, representing more than one-third of the total railroad mileage of the country.

AMOUNT AND PURPOSE OF ISSUE: The Act authorizing this issue provides that the proceeds thereof shall be applied to the liquidation of the floating and short term indebtedness of the Province. These bonds form part of an authorized issue (the Consolidation Loan of 1926) of 42,020,000 Argentine gold pesos (about \$40,500,000) or the equivalent in foreign currencies at legal parity, of which amount 6,020,000 gold pesos (about \$5,800,000) have been reserved by the Province for internal issue, the balance of 36,000,000 gold pesos (about \$34,700,000) being authorized for issuance externally. The present issue together with the internal issue above mentioned will suffice to liquidate the entire floating and short term indebtedness of the Province maturing on or before December 31, 1926.

SECURITY: These external bonds are a direct obligation of the Province of Buenos Aires, which pledges its full faith and credit for the due and punctual payment of principal, interest and sinking fund. In addition these bonds and any other subsequently issued external bonds up to the total of 36,000,000 gold pesos (about \$34,700,000) of the Consolidation Loan of 1926 are specifically secured by a first charge and lien on the real estate and inheritance taxes, subject only to the prior charges now existing; and the Province covenants that the maximum annual amount of such prior charges is not and shall not exceed 4,700,000 Argentine gold pesos (\$4,535,000).

The Province declares that the real estate tax, the revenues from which will be greatly increased through revaluations effective January 1, 1927, is calculated to produce not less than the equivalent of 24,200,000 Argentine gold pesos (\$23,300,000) in each fiscal year. After deducting from this amount the said annual prior charges, there remains an amount equal to more than ten times the annual service charges on, this issue, and more than six times those of the total authorized external issue of said Consolidation Loan. After deducting the said annual prior charges from the combined calculated annual revenue from the real estate and inheritance taxes, the remainder is equivalent to more than eleven times the annual service charges on this issue, and more than seven times the same charges on said total authorized external issue. Should at any time the revenue from the real estate tax fall below the amount above specified, the Province covenants that at the request of the Fiscal Agents it will pledge receipts from other taxes in an amount equal to the that at the request of the Fiscal Agents it will pledge receipts from other taxes in an amount equal to the deficiency until the revenue from the real estate tax shall again reach the above figure. The Province in addition covenants to establish the rates and bases of the real estate and inheritance taxes pledged as security for this issue in order to ensure as a minimum the revenues referred to above as long as any of these bonds remain

DEBT RECORD: For 29 years, with the exception of two years during the World War, the Province has never failed to provide funds for the interest payments on its external debt. The Province funded the 1915 and 1916 interest payments at the time. The sinking fund payments due at this time were resumed in 1919 and 1920. Prior to this period, in 1890, in consequence of the so-called Baring crisis, the Province, in common with several South American countries including Argentina, failed to meet its external debt service. By agreement with the bondholders the external debt was refunded into bonds of the Argentine Nation and payments resumed.

FINANCE: In 1920 total receipts of the Province aggregated \$30,950,000, and by 1925 they had risen to

The total funded indebtedness of the Province, including this issue, is \$239,302,300. The assessed value of privately owned real estate is in excess of \$2,000,000,000, based upon present assessments, it being estimated that the actual market value is approximately double this amount. The total wealth of the Province is estimated at over \$6,000,000,000, representing a per capita wealth in excess of \$2,300, as compared with a per capita debt

All conversions of Argentine pesos to United S tates dollars have been made at par of exchange.

These Bonds are offered when, as and it issued and accepted by us and subject to the approval of counsel, Messrs. Sullivan & Cromwell, New York City, who as to questions of Argentine law, will consult with Dr. Benjamin Garcia Victorica and Dr. Carlos Meyer Pellegrini, Buenos Aires. We reserve the right to reject subscriptions in whole or in part, to allot less than the amount applied for and to close the subscription books at any time without notice. The Case for Common Stocks

Most people, when they think of com-mon stocks, think of speculation, mar-ginal trading, or promotional enterprises. It must be admitted, unfortunately, that many stocks are bought in this way; that losses are suffered because of the injudicious and careless investment of funds in this class of securities.

But there are safe stocks, too. There is a way to buy them without speculating. You can share, as so many others have shared, in the growing profits of American Industry and at the same time have your funds employed on a true investment basis.

Our booklet, "Sharing in the Profits of American Industry," presents the case for common stocks of real investment worth. It will not help you if you are interested in speculating. It does not deal at all with promotional ventures. But if you wish to build up a safe and profitable estate by a judicious admirture of good bonds and good stocks, this booklet should be of interest and value to you. You will incur no obligation by sending for a copy.

The scientific Brooks Appliance-rebuilt, improved and recreated-retains the rupture with ease and safety-and at the same time promotes HEALING.

Circulation is free—there are no chafing straps, no cruel steel hoops. You can run, jump, swim, bend-resume your normal activities. And all the time the Brooks Appliance will be

of hygienic rubber gently brings the torn edges together. Nature does its part-the edges knit and your rupture is sealed. You are well and sound.

Constantly Works to Heal

Working or playing - sleeping or walking—the Brooks Appliance is faithfully hastening your complete relight and comfortable, is designed so that every movement of your body tends to close the wound, rather than force it open. Absolute cleanliness is assured. The entire appliance, which weighs only a few ounces can be washed daily in water or antiseptics, eliminating all body odors, irritations and causes of skin blistering. Every feature of this highly perfected appli-ance constantly works to heal you.

Heals Young and Old

Rupture is no respecter of persons. Little children, young men and women, through the better part of their lives, mable to enjoy the sports and pleas-

Read What These Former Sufferers Say

Among the thousands of rupture sufferers who have been healed by this wonderful new appliance, there are few cases more severe than that of Mr. E. W. Morgan, 1425 W. 37th St., Norfolk, Va. Mr. Morgan writes: "I was ruptured severely, and spent hundreds of dollars in a vain effort to obtain relief. Nothing helped me until I tried your appliance, which I can say has entirely healed me. "We do not worry much about the minister being pictured sometimes as of the people see us," said Dr. Andrews, "but we do not think it is quite fair to always represent the Catholic priest and nun in a reverent attitude and the Protestant minister as a sissy or a ninny."

Dr. Andrews read a letter to him from Freeman H. Hubbard, secretary of the American Association of Carton Freeman H. Hubbard, secretary of the American Association of Cartonists and Caricaturists, which said the association wished to "commend the efforts you are making, as reported in the press, to prevent the caricaturing of clergymen on the stage and in the movies," and saying the association recently took action on the subject of ridiculing clergymen in cartoons or comic strips, adopting a resolution urging all of its members to exert their influence on fellow cartonists not affiliated with it.

The recent controversy over the federation of labor in Detroit brought out a show of feeling. Dr. Joseph A. Vance of Detroit declared the situation there was acute "because of a long and bitter controversy over unionizing the automobile industry." He denied that the chamber of commerce had tried to intimidate the pastors.

at and as hard a one to sing at Kimball hall last night as any that have yet appeared this season. Madrigals and works of a similar type out of the literature of old England, France, and Italy belong among the musical delights, but they are tricky things on voices, tending toward quarter-tones and various other vocal mishaps. Yet Conductor D. A. Clippinger is an expert, and his training beforehand and guidance at the time carried the chorus through its program in a manner both interesting and entertaining.

Louis Kreidler, the haritone soloist of the evening, made an excellent impression with two song groups, one of old works, the other of modern. He displayed routine artistic convictions, and excellent English enunciation.

Another joyous "pop," the sixth of the series, was played by Mr. Stock and the Chirago Symphony orchestra at Orchestra hall. It had Schumann's Fourth Symphony as principal number, that good violinist, Alexander Zukovsky, in a brilliant performance of Wieniawski's "Souvenir de Moscou," as soloist, and a number of briefer but equally enjoyable pieces as a reason for attendance. One of these, Hartmann's "The Vikings," was an overture that needed only a slight infusion of the Paul Whitaman color and manner to make it a first class number.

Some women do. Some women ake such excellent care of their health that these try-to-catch-up-measures of other women do seem foolish. It is one of the things it is not necessary for anybody to be arbitrary about. If one feels she can get on without them she is privileged to do so. If another thinks they improve her she is equally

For myself, and doubtless for count-ess numbers of other women, the psy-hological effect alone of a good facial sems worth the money spent. I come way feeling a lot more pleased with my face than when I took it into the my face than when I took it into the beauty parlor. As woman to woman, I ask you if that isn't worth something? I find, too, when I do it for myself and I see or think I see an improvement, it buoys me up to other efforts of self-improvement. I brush my hair a little more vigorously, look to my nails a bit more carefully, weigh myself a trifle more honestly—and that, you cannot deny, has some value.

Aside from all this, however, I notice as women get older the face that has been treated with a certain amount of care from the massage standpoint is invariably a better groomed one. There are not many faces that can weather the years without some beauty aid or either. And intelligently applied massage is one of the good methods of skin preservation. One can overde, of eservation. One can overdo, of urse. But it is not necessary to.

A woman of 40 of my acquaintance has the best preserved skin of any woman of her age I have ever met. Since she was 15 she has given herself a light massage nightly. Hers was not a skin of natural beauty. It was her mother's discouragement over her own that inspired her to make daughter's complexion and skin a nightly ritual. In massages you stimulate the skin with friction, smooth out the lines, and the skin with a certain amount of

At least, the handsomer you think they are the better you're going to get along with them, which rule may be applied to women folk, too.

If a girl were brainless enough to judge a man by his profile solely she'd be needing your help—not your censure. But they're not so brainless, taking them by and large, these girls, and that's why they keep on saying: "He's terribly good looking."

The greatest pleasure that any one of us can know comes with making some one else happy. No gift can bring greathappiness than a motor car.

In making an investment of any kind quality must be considered if me is to get the most for his money. And a Cadil-Inc motor car has

Reconditioned V-63 Cadillacs-with the 90day new car warrantyprovide almost new car quality at the cost of a good used car, These ars have been thoroughly gone over by Cadillac's own mechanics. The motors have been put in practically perfect running order. parts have been relaced whenever the mechanism can be improved. The finish is a new, genuine Duco one or one equally good. The upholstery has been thoroughly cleaned, and the car equipped with new tires. This thorough process makes these cars practically new in appearance and

performance. Still these cars are sold at quite a reduction.

WHAT IS A USED CAR BARGAIN?

AUTOMOBILES-GASOLINE.

That is a question that can best be answered by buyers after comparing Studebaker's used cars with other dealers' selections. Our low prices, high quality, and National Used Car Pledge guar-

We invite your special inspection of this nanusually attractive Special Six, guaranteed to be in the best of mechanical condition. Distinctive grey finish with red striping, unholstery good looking. The many extrasinclude Riflex bumpers, spare tire, heater, etc. A real buy at \$785.

Could be represented as a new car—the mechanical condition is so faultless and the appearance is so stunning. Balloon tires rus very little on pavement. Equipped with snubbers, bumpers, apotlight and other extras. Priced below the market, \$945. To say this car is easily worth more than twice our price is no exaggeration. Good running condition. Some of the extras are spotlight, windshield wiper, rear vision mirror, etc. Today, \$125.

A late model 7 passenger car that has few equals in appearance and fine performance. Traded in by a South Side denist who offed and greased car every 600-miles. Spare tire, spotlight and heater are some of the extras. Repainted an attractive color. \$645 does not approach its real value. This car can be called either a touring or a sedan—due to its excellent whiter site of the equipment is running board languages, step blates, bumpers, etc. In good mechanica condition. Offered at a saerliee price, \$285

An unusual opportunity to obtain a practically new Standard Six at a sharp reduction in price. It was just refinished a beautiful two tone combination and the excelence of the engine cart only be appreciated by a personal test. Equipped with 4 whee brakes, 5 tires with little mileage and several designable extras, You must see this

Examine this car yourself and you'll have to udmit it looks like new just refinished an attractive green to equal the pleasans appearance of the internor equipped with shutter front, Biflex bumpers, spotlight plane tire and other extras; in good running condition; an exceptional bargain at \$380
